HONORED FOR EXCELLENCE

LRA Recognizes Top Performers

The Liberia Revenue Authority (LRA) has recognized 41 of its employees for excellent performances in several categories. The employees were selected following their exceptional performances covering the 2016/2017 and 2017/2018 fiscal periods respectively.

In accordance with the Performance Management System of the Human Resources Division (HRD), a comprehensive calculation of the honorees' individual performance scores was done in line with the Authority's evaluation process. The HRD has a robust performance management team set up to monitor and track employees' performance.

Top performers are those who made it to the exceptional category (90 -100%), which rates five (5) on the performance evaluation form. The final score was arrived by adding both the mid-year and final year averages and divided by two to accumulate the final score for each honoree.

Eighteen (18) staff were in exceptional performance category in 2016/17 while 23 staff made it to the same category in 2017/18 fiscal year.

The LRA Human Resources Division said the employees' recognition program is part of vital efforts by the Authority to increase efficiency and motivate employees to continuously promote a good work culture and an attitude of productivity.
